TOWN TO TAKE OVER WEST SPUR TRACK

If Satisfactory Arrangements
Are made With Industries For
Rental and Up-Keep of Same
—Move to Have Top Put on
Water Tank.

The regular meeting of the town council was held last Monday evening in the council chamber. Mayor Bell occupied the chair and the following members were present: Councillors Lawrie, Keats, Broughton and Worts. After the reading and adoption of the minutes regular business was suspended to receive a delegation from the industrial interests. On this delegation were Messrs. J. G. W. A. Schand, E. L. Sellhorn, H. J. Sisson and R. R. Stoner. In introducing the matter which brought the delegation together, R. R. Stoner explained that the original owners of the town site had paid the initial expense of installing the water along the line of the industrial spur which runs up to the town site. It was also being paid by the town. It was suggested that the town take over the responsibility of the spur and make arrangements with the industries concerned for the rental and upkeep of the same. Representatives of the industries present signified their willingness in accepting this arrangement, as did also the members of the council. On behalf of the council the mayor suggested that the managers of the industries get together and arrange the pro rata rate that each plant should contribute and submit this to the council. The council was satisfied with the arrangement and adjourned.

On motion of Councillors Keats and Worts the assessor was instructed to re-assess the assessment on the property in Arlington subdivision. Constable Everett was granted a raise in salary of \$10.00 per month on motion of Councillors Keats and Lawrie. The question of having the top put on the water tank was brought up and it was learned that a one-day employee of the firm from which the tank was bought was residing in Alberta. A Mr. McClure, of the firm, was in motion of Councillors Keats and Broughton the secretary was instructed to write Mr. McClure and ask him to come to Redcliff at the town's expense to get an estimate of the possible cost of the work and give instructions as to how to proceed with the same. Several other matters in connection with town's business were up for discussion but no definite action was taken and the council adjourned.

To Get After Income Tax Defaulters

"The Income Tax" declared Sir Henry Drummond, minister of finance, "will be enforced with vigor and efficiency." Sir Henry was asked by a representative of the Canadian Press, Limited, as to proceedings taken against those who have failed either to make returns or to pay their tax. "The act will be enforced without fear, favor or affection, and just as soon as the statutory time has elapsed and default continues proceedings in each case will be taken. The reason that proceedings at present have not been taken in Halifax and Toronto is that the cases in those cities happen to be ripe first. The instructions are general and cover the whole country and similar orders have been given affecting defaulters in other places, and if necessary, similar proceedings will be instituted."

From a reliable source it is stated that the provincial government is considering a scheme to divert water from the South Saskatchewan river near Yellow to supply Medicine Hat. Regina and other cities and towns along the line. It is understood that municipalities will be asked to cooperate in financing the project. The shortage of water in the mill city is expected to bring quick action.

Band Concert is Billed for Thursday

During the summer months our citizens were given a number of open air entertainments by our local band all of which were thoroughly enjoyed and showed that we have a band of which we should be proud. The past few weeks little has been heard from the band, but it must not be supposed by this that the members of that organization have been idle. We understand they have been practicing faithfully preparing new selections not only for next season but for a concert which they are giving in Redcliff on Thursday, Oct. 2nd.

On this occasion the hall should be packed to its capacity and we trust the band boys will not be disappointed, since in mind they will make no other engagement for that night.

As a result of the present situation regarding the gratuity scheme an opinion of all concerned regarding the several propositions which are now up for discussion. With this end in view a representative of the industries are being sent out to all G.W.W.A. locals with the request to have same filled in and returned as soon as possible. All returned, soldiers, whether they are members of the G.W.W.A. or not, and all widows or other dependants, are requested to secure and fill in one of these questionnaires. Blank forms for this purpose have been provided to the local association and a list of the names of the G.W.W.A. members is being sent to the G.W.W.A. locals to be filled in by the members of the G.W.W.A. locals. It is requested that the members of the G.W.W.A. locals be sent to the G.W.W.A. locals to be filled in by the members of the G.W.W.A. locals. It is requested that the members of the G.W.W.A. locals be sent to the G.W.W.A. locals to be filled in by the members of the G.W.W.A. locals.

A meeting of the entertainment committee of both the U. F. A. and the G. W. W. A. will be held in the evening of Friday evening of this week at 8 o'clock. All members are urged to be present.

Work Progressing on Glass Plant Additions

Work in connection with the construction of the additions to the glass plant here is progressing favorably. The large addition being built to the rear of the plant will be completed this week. This will give just double the present capacity.

The excavation work in connection with the addition to the main part of the plant will be well under way on Wednesday morning. The laying of the concrete foundations is started. With this construction work it is expected that the plant will be able to handle a larger number of orders than ever before, and an even livelier export trade than in the past few years.

Mayor Brown Says West Needs More Action

"The west has awakened to the need of more definite action and less action and inactivity has been long. If we fail in our national ambitions, it will be because of sectionalism and lack of unity in the west and east. This was the message of Mayor Brown of Medicine Hat, president of the Alberta Industrial Development Association, to the joint and various representatives of the Canada assembly at the St. James Club. "The west needs more action," said Mayor Brown, "a dependent upon national unity, and unity will never be realized until the financial and manufacturing interests of the east realize in a greater measure to develop industrial enterprises in the west."

(By P. H. Wedderburn.)
It is a characteristic line since I wrote in your paper giving you particulars of our meetings in the country. Since I last wrote we have visited the following locals: Aldermen, Haig, Bruce, Blue Grass and Peoria.

Aldermen has been somewhat neglected of late, but so many have left the district on account of the war, and had several changes of secretaries, but now hope to go ahead again.

The Haig local, 10 miles from the field, is going strong with Messrs. Thompson and David Christie, president and secretary-treasurer respectively. At this local we had an excellent meeting, several ladies being present, who kindly provided a splendid lunch after the meeting. Mr. John Ruckman also obliging us with a corned beef, which was greatly appreciated. The ladies of this local will have meetings with the U. F. A.

At Bruce the school house was full to overflowing. This U. F. A. local has a membership of 100, and the U. F. A. 15 and is an enthusiastic branch. R. H. Curthorn and D. Boyd are president and secretary of the U. F. A. and Messrs. Vaughan and Smith are president and secretary of the U. F. A. The secretary-treasurer, Miss Garbutt has just left for the east as the position has not been filled yet. Meetings are held every two weeks, alternately at Bruce and Bluegrass school houses. The members here are a favorable one and the intention was to build a large community hall where the meetings could be held and where social and ice cream parties could be held to enable the farmers and their wives to pass many a pleasant hour. We hope they will be able to realize their plan, as this local should be one of the strongest departments in the district and with a number of splendid workers it is possible to build a large community hall where the meetings could be held and where social and ice cream parties could be held to enable the farmers and their wives to pass many a pleasant hour. We hope they will be able to realize their plan, as this local should be one of the strongest departments in the district and with a number of splendid workers it is possible to build a large community hall where the meetings could be held and where social and ice cream parties could be held to enable the farmers and their wives to pass many a pleasant hour.

Our next visit was to be at Blue Grass local, 22 miles North of Suffield, on the Jenner main road. We were to have a meeting there on the Friday and Saturday of this week. When we reached Blue Grass we found the Peoria people were having a meeting on the same evening and we had an invitation to come over there after our meeting, with the intention that we could get a good attendance. The local was well attended and we had a very good meeting. The local was well attended and we had a very good meeting.

From Mr. Culbert we were told that we were to have a meeting at the local on the 12th of this month. The local was well attended and we had a very good meeting. The local was well attended and we had a very good meeting.

The local was well attended and we had a very good meeting. The local was well attended and we had a very good meeting. The local was well attended and we had a very good meeting.

The local was well attended and we had a very good meeting. The local was well attended and we had a very good meeting. The local was well attended and we had a very good meeting.

U. F. A. AND W. A. HAVE BUSY TIME IN THIS DISTRICT

completes the circuit of this district, having organized two U. F. A.'s and five U. F. W. A.'s since June. I beg to thank the locals for the kind reception they have given me, and for the assistance to make the meetings a success. Let us make this the liveliest and most progressive district in Alberta.

Preparation for Getting Skating Rink

Pleasant to arrangements the committee selected at the meeting called by the Civic Improvement League, met at the office of R. R. Stoner last Monday evening for the purpose of completing arrangements for the establishing of a skating rink here this coming winter.

The matter of a skating rink in the spring from the school rink was introduced and a committee, consisting of E. L. Stone, C. D. Scott and Barber was appointed to wait on the Council to see if arrangements could be made to have a suitable drain arranged to carry off the water.

The following were appointed a committee to see the conditions of the school board and arrange for the necessary equipment: D. Stoner, chairman, H. W. Harper, C. G. Harcourt, C. D. Scott and E. L. Stone.

News From Gov't Re Help For Farmers

On behalf of farmers of this district P. H. Wedderburn, secretary of the Alberta Farmers' U. F. A., wrote both Dominion and provincial departments of agriculture regarding the feed situation, and has received the following replies. The first one is from Ottawa, the second from Edmonton:

Ottawa, August 19, 1919. P. H. Wedderburn, Esq., Bowell, Alberta. Dear Sir:—Replying to your letter of the 15th inst. addressed to the Minister of Agriculture, with reference to the general situation in your district caused by the drought in the resulting crop failure, I would say that up to the present the only relief measures that have been taken by the Department have been in the transportation of hay, having outlets and the stock to and from the dry areas. Under the present conditions that have been made may be transported free to points within the dry areas, having outlets and the stock to and from the dry areas. Under the present conditions that have been made may be transported free to points within the dry areas, having outlets and the stock to and from the dry areas.

Edmonton, August 29, 1919. P. H. Wedderburn, Esq., Bowell, Alberta. Dear Sir:—I have your letter with reference to the drought in the resulting crop failure, I would say that up to the present the only relief measures that have been taken by the Department have been in the transportation of hay, having outlets and the stock to and from the dry areas. Under the present conditions that have been made may be transported free to points within the dry areas, having outlets and the stock to and from the dry areas.

The Duke of Sutherland visited his farm near Brooks last week. This was the first time he had visited the farm since he was in the army. He was accompanied by his wife and a large party. The Duke was very much interested in the farm and the people who live there. He was very much interested in the farm and the people who live there.

Huge Ladel Spills At Rolling Mill

A broken pile in the huge ladle in connection with the open hearth furnace at the Rolling Mill caused considerable excitement last Tuesday evening when the fire alarm was sounded and the brigade turned out to render assistance. A broken pile of iron ordinary conditions is not much to get excited over but in this case the ladle was holding up a ladle containing about twenty tons of molten steel, and when it broke the ladle tipped over, scattering its contents in all directions. Quite an explosion followed and for a time it looked as though the entire roof of the building was in danger. Fortunately the part of the plant where the accident happened is of concrete and very little damage was done, but most fortunate is the fact that no one was hurt, notwithstanding that the full complement of men was at work.

The accident, however, caused very little delay in the general work of the plant. The men were sent clean up the refilling of the furnace was proceeded with, and another heat was drawn off at the usual hour.

Descendant of Early Settlers in Africa

From the "Penny Mail," a daily paper printed in Grahamstown, South Africa, we learn that the early settlers of the Cape of Good Hope are preparing for a "Settlers' Conference" to be held next year in that city. At a meeting to decide what form should be adopted to permanently settle the passing of the century mark the suggestion of Mr. George Wedderburn, brother of P. H. Wedderburn, of this district, was adopted. He suggested the erection of a large permanent memorial in connection with what would be a large room for the preserving and exhibiting of relics characteristic of the early settlers. In this way a scroll containing a list of all the early settlers and their descendants. As our own P. H. is one of these early settlers, together with Mr. Wedderburn, the members of the family will occupy a space on the scroll, and he has already received a blank form from the secretary to be filled in.

The idea is a good one and might well be carried into consideration in this country when planning memorials for the Great War.

Alberta Teachers Adopt Schedule of Salaries

The executive of the Provincial Teachers' Association met in Calgary on Saturday last. A large increase in membership is announced and the executive feels that it will only be a matter of time before the Alliance will be a reality in the province. The Alliance is now in a position to urge upon all school boards the adoption of a new self-organizing contract which provides for the teacher more security of tenure of his position by making it impossible to dismiss him except for proved inefficiency or misconduct, or to transfer him without his consent.

The new contract further embodies a provincial wage schedule, the main features of which is a minimum wage of \$1,000 per annum for teachers of 11-12 years and a liberal increase for experience and efficiency. This minimum is \$400 in advance of the present minimum and is a very good thing, with a view to bettering more especially the status of the teacher.

The work of organization has grown to such proportions that the employment of a permanent provincial organizer has been decided upon. The organizer will be highly paid and will give his entire time to the organizing of the local Alliances throughout the province. District secretaries were also appointed to relieve the provincial secretary and to ensure a more intensive organization in every section of the province. Mr. G. Newland, of Edmonton, was authorized to be present at the next session of the provincial legislature and to make the necessary arrangements in the School Education Act under consideration by the law committee.

CHAUTAUQUA NEXT YEAR IS NOW ASSURED

Representative Returns to Town
and Meets With Heavy Reception—Wanted Sixty Guarantors and Got Eighty.

As a result of the visit of Miss Strayer to Redcliff last week this town is now assured of having a Chautauque here again next season. Miss Strayer had charge of the Chautauque last summer but at the close of the season, she was unable to secure the required number of guarantors to make a return visit next season possible.

Since leaving here, however, the company has had a most successful season and every town on the circuit has been again for next season. Those in town who were anxious to have the Chautauque an annual event were encouraged by the apparent interest taken by the guarantors of citizens who had refrained from signing the contract last summer and were more anxious than she to get the match another trial. She asked 60 to do so and the result has been most encouraging and satisfactory.

According to the decision of the meeting held at the close of the engagement here last summer it was decided to accept of a permanent guarantor before the contract became binding. At that time less than half the number who signed the contract had been secured. The idea was abandoned. On Miss Strayer's visit last week, however, it appeared that the people themselves were more anxious than she to get the contract filled up to the required number. As a result her work was considerably eased and in a very few hours over eighty names instead of sixty were secured. Besides this the town number who signed the contract was increased and they did not sign the contract, signified their willingness to pay their share of the bill if it should be so.

With this large number of interested guarantors and the present prospects for busy times ahead in Redcliff, the Chautauque may be expected next year.

Is Strong Believer In Summer Fallow

R. S. Furber, of the Bowell district, who has had one of the best crops in the district this year, has just finished harvesting and reports a yield of 12 bushels to acre off 46 acres of summer fallow. In all he threshed 650 bushels and reports a yield of 12 bushels to acre off 46 acres of summer fallow. In all he threshed 650 bushels and reports a yield of 12 bushels to acre off 46 acres of summer fallow. In all he threshed 650 bushels and reports a yield of 12 bushels to acre off 46 acres of summer fallow.

British Withdrawing Now From Siberia

The evacuation of the Amchur by the British is proceeding as smoothly as could be expected in view of the formidable difficulties, including a shortage of shipping. The difficulties have been increased by the fact that in addition to the troops, thousands of civilians are being evacuated. The evacuation is being continued for the purpose of screening the movements of the troops and making the British withdrawal as unobtrusive as possible. A large number of British troops have been at Amchur ready to embark. The evacuation is being continued for the purpose of screening the movements of the troops and making the British withdrawal as unobtrusive as possible.

VICTORY BOND ISSUE

Within the next few weeks Canada will start another campaign for the sale of Victory Bonds, and since much of the success of our country for the next few years will depend upon the success of the issuing of these bonds, it behooves every loyal citizen to start now getting his house in order so that he may be able to assist in making this campaign the greatest success yet.

According to statistics Canada has more money on deposit in her banks and more in savings accounts than she has ever had before. This is a healthy note and should be a guarantee that no trouble will be experienced in raising the amount stipulated in the next Victory Loan.

The issuing of these bonds is not a new venture in Canada and the benefits to be derived therefrom are well known to the Canadian people.

FAMOUS MESSAGE.

Much prominence is being given lately to the famous dispatch which Marshal Foch sent to French army headquarters the first battle of the Marne. The message reads: "My centre is giving way; my right is retreating; the situation is excellent; I am attacking."

To the casual reader there may not appear to be much in this message to cause any note being taken of it, but if one looks into it carefully and reads between the lines, he will find in it a message and an inspiration that might well be applied to our individual and national life. What is now supposed to be times of peace.

With the strife, turmoil, unrest and dissatisfaction on all sides it would be well for us as individuals and as a people to be able to say "we are attacking." But first of all it would be well for us to make sure we are attacking in the right direction.

SEE THE PRINCE.

In an outline of the program for the Prince of Wales during his visit in Medicine Hat, we notice that provision has been made for special attention to the school children and that the committee in charge of arrangements has extended an invitation to schools of the surrounding district to be present on that occasion. In being the case it would be a good idea if the school board and teachers of our school here would make arrangements to accept this invitation and see that as many as possible of our school children are allowed to take advantage of this opportunity.

The Prince visits the Hat on Friday morning next and as arrangements have been made to have the early morning train stop here to take on passengers on that day the question of getting the children to and from the celebration could be easily arranged.

A school holiday could be proclaimed in honor of the visit of the heir to the throne to this district so as to allow as many of the children who care to see the Prince do so. This will be the only opportunity they will have of seeing and hearing him and an effort should be made to allow them to take advantage of it.

PUBLIC CO-OPERATION IN TOWN PLANNING.

The following from "Conservation" is so applicable to all centres that we reprint it in full:

A city must, first of all, be a place where its inhabitants pursue their gain-getting activities; it is the sphere of their daily labors, whereby they earn the means to live. But, if it is nothing more than this, and some manufacturing towns, unfortunately, are little else—it fails to fulfil the functions of a city; it is nothing but a sort of permanent camp lacking the true qualities of a home. Men desire not only to live, but to live in bodily health, to have wholesome recreation, to improve their minds and characters, to strive upwards after beauty, truth, and goodness. The city must be a place where the best yearnings of the human soul are not warped or tainted, but where they find a nourishing and congenial soil. A city that provides the right environment for the social and spiritual needs of its citizens wins their sentimental attachment, it becomes their "home," of which they are justly proud and for which they justly conceive a strong municipal patriotism.

City planning is, then, the expression of a complex idea, an expression which cannot be the work of one man nor of the men of one profession, but which must be participated in by all the citizens. The city planner supplies the basis on which the community, all and severally, must rest the superstructure. City planning may improve the facilities for business, but cannot make that business successful; it may install the most up-to-date sanitary systems, but cannot make persons cleanly in their habits; it may provide safe guards against accident, but cannot give people caution; it may lay out beautiful parks and well-equipped play-grounds, but cannot justify an appreciation of the beauties of nature nor teach the art of rational recreation; it may reserve splendid situations for imposing public buildings, but cannot ensure that government will be honest, efficient and wise.

City planning deals only with externals; the moving spirit must come from the citizens. It is true, of course, that organized planning is impossible in a city that has not already reached a certain degree of public virtue, and it is also true that an improvement in environment, once its value is demonstrated, may make more easy the exercise of that virtue. Yet it must not be supposed that city planning is going to work wonders without perseverance and self-control, a conscious, sustained and general effort to secure improvement; its good results can be achieved by simply calling in a board of experts and setting them to work, but require the loyal cooperation of every member of the community.

As a result of the Industrial Congress recently held in Ottawa we may reasonably look forward to greatly improved conditions in the feeling between capital and labor. Both sides have learned much from the deliberations at the conference. Probably the most important point brought out was that both sides have their troubles and that the best way to overcome them was by both working harmoniously together.

Ontario is having a general provincial election on October 20, and from all accounts it will be the hottest one on record. Farmers are taking a keen interest in this election and have candidates in a number of constituencies. The result will be anxiously looked forward to.

Overseas Office,
Ottawa,
1st September 1919.

Dear Sir Hamilton,

I am pleased to be the holder of a Canadian War Savings Certificate. I am delighted to find that in Canada you have War Savings Bonds on sale, (please) so these we have in England.

I wish the War Savings campaign every success.

Yours sincerely,
Sir Herbert B. Ames,
National War Savings Committee,
Ottawa.

Facsimile of the letter sent to the Chairman of the National War Savings Committee by His Royal Highness the Prince of Wales, at the time he purchased in Ottawa a Canadian War Savings Certificate containing the full number of ten War Savings Stamps.

Every time Hon. Chas. Murphy takes a fall out of Hon. Wesley Howell for describing Laurier on the war question it makes one wonder? what nationality Murphy is.

When it is announced from time to time that coal is to be advanced another 50c a ton, it's a grand and glorious thing that comes over those who live in our natural gas belt.

Provincial police have harvested several cases of liquor off a farm near Olds and Olds hasn't any irrigation system either. There's some hope for the dry belt yet.

Lethbridge District
Is After Irrigation

The Lethbridge northern irrigation project, which is calculated to irrigate 100,000 acres in the districts to the north of "Red" city, was called for by the farmers of the district of Saturday, by an overwhelming majority. The vote was taken on the formation of an irrigation district, and was held at Twelve Mile couples school house. The result was 284 votes in favor and eight against the project. The trustees elected were Messrs. George Chew, T. W. Crofts and Lever. The winning officer for the vote was T. W. Crofts. The result of the vote will be followed with the formation of the irrigation district under the Irrigation Act. If the campaign to secure government guarantee of bonds for this project is successful, it is expected that construction on the project will be started next spring, under bonds issued by the district.

The meeting has not yet taken place for the irrigation project south of Macleod, but it is expected that a date will be shortly set for this.

Does Canada Want?

Ypres and Vimy Ridge

Some time ago the Belgian government presented to Canada a block of land in Ypres, for the erection of a Canada hall of record as a monument of Canis fighting in the Ypres salient.

The French government also offered several acres of Vimy Ridge for the same purpose.

It is learned that the mayor of Vimy has been instructed to allocate a site for this purpose, he has not yet heard whether the Canadian government intends to accept the gift of the Belgian government and is also anxious whether the French offer will be accepted.

Unless something is done without delay, these sites may pass under the control of the British Imperial authorities.

Correct Version of

Foch's Famous Dispatch

Many versions of Marshal Foch's famous dispatch to French general headquarters during the first battle of the Marne, have been published. Recently, however, when the Foch has just been published, has been permitted to search the records of the French army headquarters and find the original dispatch from Foch to Joffre reads thus:

"My centre is giving way; my right is retreating; the situation is excellent; I am attacking."

DOUBLE APPEAL TO BUSINESS
INSTINCTS OF WESTERN
FARMER.

Investing of profits in Victory Bonds has a singular appeal to western farmers. The action is a sort of merry-go-round in which the farmer makes money at each turn. Not only does he gain a good rate of interest, but he assures himself of a market for his products at profitable prices.

The big business of Canada is built on foreign trade. This foreign trade is secured \$2.15 a bushel for his wheat, and proportionately good prices for his other products. As a matter of fact, the western farmer is urged to invest every cent of the earnings that he can spare in these bonds.

HALFOUR MAY SUCCEED
GREY IN THE UNITED STATES

According to the London Daily Mirror, Arthur J. Halfour, British foreign secretary, is soon to be created an earl in recognition of his services to the empire during the war.

The newspaper adds that the raising of Mr. Halfour to an earldom is likely to come simultaneously with his retirement from the foreign office, which is expected to take place during the autumn. The Mirror says also that when Viscount Bessington, his post of ambassador to the United States, a few months hence, Mr. Halfour may be invited to succeed him.

The Jewish new year celebration started last night at sundown. The new year is number 5660 in the Jewish calendar.

U. S. NAVY WILL WELCOME THE PRINCE.

A telegram from Hon. Joseph Daniels, secretary of the United States navy, stated that Admiral Rohman, commander-in-chief of the American Pacific fleet, would be in Vancouver during the visit of H. R. H. the Prince of Wales, on September 22. Although the message did not say so, it is expected that some United States warships also will be in the harbor on that occasion.

BELGIUM'S KING IS

COMING TO AMERICA.
King Albert, Queen Elisabeth and Crown Prince Leopold left Brussels last Monday morning at 8:00 o'clock for Ostend, where they will go on board the steamer George Washington for their voyage to the United States.

NEW TIME TABLE
FOR C. P. R. TRAINS.
 The following is the new schedule of the C. P. R. which goes into effect on June 1st, giving a list of the time trains pass through here after that date.

GOING WEST.
 No. 3 leaves Redcliff 1:30 p. m.
 No. 19 leaves Redcliff 10:10 p. m.
GOING EAST.
 No. 4 leaves Redcliff 8:30 p. m.
 No. 14 (flag) leaves Redcliff 4:40 a. m.
 This is railroad time, which means that anyone wishing to take a train should be at the depot one hour earlier.

ITEMS OF LOCAL INTEREST

See the pretty new plaids for winter at Gibson & Tupper's.

GIRL WANTED? Do general house work. Apply to Mrs. E. L. House.

Mrs. Chas. Ardinger and family left last Friday for Wenatchee, Wash., to join Mr. Ardinger, who is now located there.

A train load of British soldiers on their way back to England from Siberia, passed through here last Sunday night.

Mrs. A. G. Graham arrived in town from England last Saturday to join her husband here.

Rev. E. C. Greenstreet is in Regina this week attending the conference of the clergy of the Diocese of Assiniboia.

Flannellette blankets at Gibson & Tupper's.

During the tea hour last Tuesday Mrs. H. J. Sissons entertained a number of friends. A most successful and enjoyable afternoon in report.

Mrs. H. Hargreaves and family left Tuesday evening for Seattle to join Mr. Hargreaves who is now located there.

Mrs. R. S. Furber and family, of the Bowell district, are spending a few days this week in Medicine Hat, visiting friends.

New dress plaids at Gibson & Tupper's.

An embargo in Alberta and Saskatchewan to ensure what for seed and domestic needs next year is decided on.

The local band is giving a concert in Red's hall on this day, October 2nd. Secure your tickets from members of the band and be sure to be on hand.

R. W. Riddell, managing director of the Industrial Coal & Coke Company, Limited, states that Alberta wants to sell Manitoba a million tons additional coal a year.

A fine big clean looking potato is on exhibition in Mac's cigar store window. It was grown in T. J. Ashida's garden and weighs two pounds and five ounces. It is a good sample of what can be grown in this district.

Capt. McColl, the Calgary aviator, is in Medicine Hat again today to train excursionists to the clouds. He makes 15 minute trips and according to reports his time is pretty well taken up.

W. T. Lockwood, who has been visiting friends in the south for the past few weeks, returned to town last Sunday. W. T. did not return in his air ship as he intended, as he had not time to wait for favorable weather conditions.

Newest fall styles in walk blouses for ladies. Gibson & Tupper's.

Mrs. Ora Long, Blatoom, returned to town this week to resume her studies in the school.

R. D. Fairbairn, of Carduff, Sask., stopped off here for a few days en route to visit his brother, W. H. Fairbairn. R. D. was returning from Cleveland where he has purchased a hardware business.

Mrs. R. R. Stoner entertained a number of her lady friends to an afternoon tea last Friday. Before serving refreshments a pleasant social hour was spent.

Hon. Frank Cochran, former minister of railways and canals in the Jordan government, died at his apartment in the Roxborough, Ottawa, last Sunday morning.

The time has arrived to make arrangements for storn aches and corns. Order early to avoid delay from Atlas Lumber Co.

Senior pupils at the school have organized an orchestra and are now having regular practices every Friday evening. We understand they are making excellent progress and will soon be making their debut in public.

Mrs. R. R. Stoner and son Robert, leave tonight for Los Angeles, California, where Robert will enter the Stanford university to commence his studies in the medical course. Mrs. Stoner expects to be away till Christmas.

The impromptu dance gotten up by a number of young people last Friday evening developed into a most successful affair. There was a good crowd in attendance. The Redcliff orchestra furnished good music and the floor was in excellent condition. There was, with the appetizing lunch provided by the ladies left nothing to be desired.

Officers of the G. W. V. A. have made arrangements to have the morning train which passes through here at 7 o'clock, stop at Redcliff on the morning of Oct. 3rd to take on any who may wish to go to Medicine Hat to see the P. line of Wales who is to be in that city that morning.

C. P. R. officials were in town last Monday consulting with representatives of the different industries here regarding the operations of the spur tracks. The matter was later taken up with the council in session in the evening.

The tag day held last Saturday under the auspices of the Civic Improvement League, was a great success. The canvassers were gaily received by almost all upon whom they called and the donations were very liberal. The total sum collected was somewhere in the neighborhood of \$100.00. This, we understand, will be used largely for fitting up a skating rink for this winter.

We have received word from our station agent here that in future train No. 2, which goes through from the west every morning at 6:30 will stop to allow passengers from the west to detrain. If in future passengers experience any difficulty in securing tickets at western points for this train or are carried through to Medicine Hat by conductors they should register a complaint with the agent here.

DENTISTRY.
 Holidays are now over and I will be in my office every day. Get your teeth filled before the cold weather comes on and avoid tooth aches.
 - J. C. LEARY, D.D.S., 9 to 5, Sykes Block.

Alberta Loses Much By Forest Fires

The forest fire situation in Alberta is the worst in years, according to E. H. Flaitson, forestry supervisor, who

recently said that the flames were raging in many districts. Approximately 30,000,000 feet of valuable timber has already been destroyed, he announced. The most serious conflagration, in the northwest corner of Stony Indian Reserve, menaces the nothern outskirts of Banff National park.
